Art Unit: 2412

I. The reissue oath or declaration filed on 06/16/97 is defective because it fails to contain a statement that the applicant believes the original patent to be wholly or partially inoperative or invalid, as required under 37 C.F.R. § 1.175(a)(1).

The declaration fails to establish for the file record, that the errors sought to be corrected are without deceptive intent within the meaning of 35 U.S.C. § 251.

1. The declaration fails to distinctly specify the excesses or insufficiencies in the claims, i.e., how the error(s) has been rectified by specifically pointing out the difference in scope between the original claims and the amended or added reissue claims. 37 CFR 1.175(a)(3) [MPEP 1414.01].

The rule requires "distinctly specify," not broad statements as is found in the instant declaration; e.g., do the insufficiencies or errors occur due to the lacking of the "slider bars?," and how the "slider bars" (line 15 in page 2 of the Declaration) rectifies these errors?; or why the "thickness of the line" can rectify the error(s), if exists in claims 2, 14, and 26?

The amended declaration still fails to "distinctly" specify the insufficiencies in the claims. Specifically, does applicant believe that the original patent to be wholly or partially inoperative or invalid without the limitations of the slider bars as the variation of the thickness of the line.

2. The declaration fails to specifically point out the errors and how they arose or occurred, i.e., specifically when and the manner in which they occurred. 37 CFR 1.175(a)(5) [MPEP 1414.03].

5 The declaration states that the inventor recognized in the error in "early 1994", but does not identify who made the error. Who made the error? Why was the subject matter presented in the newly added claims not claimed during the original prosecution of the patent? What was the specific day of the "early 1994"? Why did the invention wait until August 1994 to file the reissue case? Is the applicant alleging that the error arose due to the prosecuting attorney? If the attorney failed to recognize the scope of coverage needed or possible

10 Did the inventor fail to appreciate the claim limitations at the time of the original prosecution? If so then this should be stated.

3. The oath or declaration fails to specifically point out how and when the errors were discovered, i.e., the circumstances (including date as specified as possible) under which applicant became aware of the errors. 37 CFR 1.175(a)(5) [MPEP 1414.03].

15 For what reason(s) was the patent reviewed by the inventor? Is there any date more specific than "in early 1994, in connection with a routine review of the aforementioned patent"? [Page 2 of Declaration]. If it is routine review, why

20 was it not done earlier?
